Mr. HANSEN. Mr. Speaker, I yield myself such time as I may consume.

H.R. 2889 would amend the Central Utah Project to authorize the Secretary of Interior to use up to \$60 million in unexpended budget authority to acquire water and water rights, complete project facilities, and implement water conservation measures within the CUP. Since the 1992 enactment of the CUP Completion Act, issues regarding endangered species, water conservation and minimum flows in the lower Provo River have arisen that need to be adequately addressed and funded. During completion of the CUP, changes in modifications to project features resulted in excess funds in some accounts and shortages in others.

 \square 2030

This requires this amendment to the table. complete this project.

Mr. Speaker, I reserve the balance of my time.

Mr. UNDERWOOD. Mr. Speaker, I yield myself such time as I may consume.

(Mr. UNDERWOOD asked and was given permission to revise and extend his remarks.)

Mr. UNDERWOOD. Mr. Speaker, H.R. 2889 would permit the use of savings achieved in certain areas of the Central Utah Project to be spent on other projects and programs where needed and without further Congressional approval. The administration supports the bill and it is not considered controversial. I urge my colleagues to support H.R. 2889.

Mr. Speaker, I yield back the balance of my time.

Mr. HANSEN. Mr. Speaker, I yield such time as he may consume to the gentleman from Utah (Mr. CANNON).

Mr. CANNON. Mr. Speaker, first of all, I would like to express my gratitude to the gentleman from California (Chairman DOOLITTLE), the gentleman from Alaska (Chairman YOUNG) and the House leadership for bringing this legislation before the House.

The Central Utah Project has allowed for the development and delivery of Utah's water for decades. The Bureau of Reclamation and the Central Utah Water Conservancy District have nearly completed the planning of the project components and water conservation measures have surpassed expectations, while Federal dollars have been saved at various stages.

H.R. 2889 simply allows resources to be shifted from one project to the next as they are needed. This will ensure that the remaining projects can be completed in a timely and cost effective manner. The legislation provides no additional Federal dollars. It only provides flexibility to transfer already authorized dollars and resources as they are needed throughout the project.

H.R. 2889 does not increase Federal spending, nor does it increase any Federal spending authority. H.R. 2889 incorporates the changes sought by the

administration, and, therefore, we do not expect opposition from the White House. Companion legislation has been introduced by Senator Bennett and consideration by the other body is expected soon.

Mr. Speaker, I urge my colleagues to support H.R. 2889.

Mr. HANSEN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Utah (Mr. HANSEN) that the House suspend the rules and pass the bill, H.R. 2889.

The question was taken; and (twothirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. HANSEN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 2632 and H.R. 2889.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

SENSE OF CONGRESS REGARDING SHARK FINNING

Mr. SAXTON. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 189) expressing the sense of the Congress regarding the wasteful and unsportsmanlike practice known as shark finning, as amended.

The Clerk read as follows:

H. CON. RES. 189

Whereas shark finning is the practice of removing the fins of a shark and dumping its carcass back into the ocean;

Whereas demand for shark fins is driving dramatic increases in shark fishing and mortality around the world;

Whereas the life history characteristics of sharks, including slow growth, late sexual maturity, and the production of few young, make them particularly vulnerable to overfishing and necessitate careful management of shark fisheries;

Whereas shark finning is not prohibited in the waters of the Pacific Ocean in which fisheries are managed by the Federal Government;

Whereas according to the National Marine Fisheries Service, the number of sharks killed in Central Pacific Ocean and Western Pacific Ocean fisheries rose from 2,289 in 1991 to 60,857 in 1998, an increase of over 2,500 percent, and continues to rise unabated;

Whereas of the 60,857 sharks landed in Central Pacific Ocean and Western Pacific Ocean fisheries in 1998, 98.7 percent, or 60,085, were killed for their fins;

Whereas shark fins comprise only between 1 percent and 5 percent of the weight of a shark, and shark finning results in the unconscionable waste of 95 percent to 99 percent (by weight) of a valuable public resource;

Whereas the National Marine Fisheries Service has stated that shark finning is

wasteful, should be stopped, and is contrary to United States fisheries conservation and management policies;

Whereas shark finning is prohibited in the United States exclusive economic zone of the Atlantic Ocean, the Gulf of Mexico, and the Caribbean;

Whereas the practice of shark finning in the waters of the United States in the Pacific Ocean is inconsistent with the Magnuson-Stevens Fishery Conservation and Management Act, the Federal Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks, and the shark finning prohibitions that apply in State waters in the Atlantic Ocean and Pacific Ocean;

Whereas the United States is a global leader in shark management, and the practice of shark finning in the waters of the United States in the Pacific Ocean is inconsistent with United States international obligations, including the Code of Conduct for Responsible Fishing of the Food and Agriculture Organization of the United Nations, the International Plan of Action for Sharks of such organization, and the United Nation's Agreement on Straddling Stocks and Highly Migratory Species; and

Whereas establishment of a prohibition on the practice of shark finning in the Central Pacific Ocean and Western Pacific Ocean would result in the immediate reduction of waste and could reduce shark mortality by as much as 85 percent: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That it is the sense of the Congress that—

(1) the practice of removing the fins of a shark and dumping its carcass back into the ocean, commonly referred to as shark finning, is a wasteful and unsportsmanlike practice that could lead to overfishing of shark resources:

(2) all Federal and State agencies and other management entities that have jurisdiction over fisheries in waters of the United States where the practice of shark finning is not prohibited should promptly and permanently end that practice in those waters; and

(3) the Secretary of State should continue to strongly advocate for the coordinated management of sharks and the eventual elimination of shark finning in all other waters.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. SAXTON) and the gentleman from Minnesota (Mr. VENTO) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey (Mr. SAXTON).

GENERAL LEAVE

Mr. SAXTON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H. Con. Res. 189.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. SAXTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H. Con. Res. 189, authored by my friend the gentleman from California (Mr. Cunningham), expresses the sense of Congress that the practice of shark finning is wasteful and unsportsmanlike. In addition, it calls on the Western Pacific Regional Fisheries Management Council, the National Marine Fisheries Service and the State Department to take action to
